

COSTA RICA FACULTY-LED PROGRAM

Meet Margaret, a Food Science Major, Business Minor, who participated in the faculty-led program to Costa Rica

“Absolutely DO IT! It was one of the best experiences of my undergrad! If you are uncertain about studying abroad by yourself, faculty-led programs are the perfect option.”

1 Why did you choose Costa Rica?
-Why not! I enrolled in the English class and had an incredible experience. I learned so much on my study abroad. It was a lot of work upfront, but so worth it in the end!

2 Most memorable experience?
-Oh so many! But one big one was climbing a ton of steps to get to a beautiful waterfall. It was exhausting and A LOT of steps, but we did this on New Year's Day so it was a great start to the new year.

3 How has studying abroad impacted you?

-I was able to experience a whole new culture and a world outside the MMU bubble. I got close with other classmates that I wouldn't otherwise have had a class with.

4 Margaret graduated in 2021 from MMU and in 2023 graduated from Marquette University with her M. Ed!
