

## A.A.S. Interior Design > B.A. Interior Design

The Interior Design program goes through a rigorous accreditation process through the Council for Interior Design Accreditation (CIDA) that exceeds industry standards and provides a top-notch curriculum. The program prepares students for present and future demands in the interior design profession; to solve problems with creativity, integrity, and critical thinking; and to recognize their responsibility to the community and beyond"

The philosophy of the Interior Design faculty recognizes and responds to the continual changes in technology, skills, specializations and the industry as they influence interior design and related fields. Faculty members provide academic and experiential coursework augmented by community outreach, professional involvement and one-on-one student contact in and out of the classroom.

**Agreement Description:** The purpose of this degree completion agreement is to provide a seamless transfer process for learners at Milwaukee Area Technical College to enter Mount Mary University for further education and credentials.
