MOUNT MARY UNIVERSITY

# GLOBAL STUDIES

SCHOOL OF ARTS & SCIENCES

Mount Mary University's global studies program creates unique opportunities for students to become lifelong learners of global cultures. Cultural competency and the ability to bridge cultural barriers in today's ever-shifting global society begins with interdisciplinary studies that have a global focus.

A global studies degree prepares students to live and work in a competitive, interdependent world. Mount Mary students develop literacy in global matters, multiculturalism and cultural diversity, while developing language proficiency and becoming contributing members of our global society. Mount Mary offers small, interactive classes conducive to world language learning. The program fosters critical thinking and intellectual growth and augments students' appreciation of varied literature and civilizations. Using a communicative approach to teaching, instructors often use role-playing to place students in real-life situations where they must not only know the language, but also understand cultural variables that can impact intercultural communication.
